Planned Shutdown of JBAB AAFES Gas Station

The AAFES Gas Station at Building 1311 is scheduled for a temporary shutdown from Monday, March 9th, through April 22nd. The Class 6 and Shoppette will remain open the entire time. This temporary closure is necessary to complete a critical project to replace the gas station's underground storage tanks (USTs), piping, and associated electrical systems. This essential work will ensure the facility remains in environmental compliance with D.C. regulations, prevent potential fuel leaks, and guarantee the long-term safety and integrity of fueling operations. Please note: Timeline may shift due to unforeseen circumstances.

February 9th - Contractor begins mobilizing equipment on-site.

March 9th - Gas station pumps close; project work begins.

April 22nd - Project completion and system testing.

April 23rd - Gas station reopens.

The 11 CES understands this will be an inconvenience and appreciates your patience as we complete this vital infrastructure upgrade. We will provide regular updates on the project's progress and notify the community of any schedule changes. Please plan your upcoming March fueling needs accordingly.
